Mr Aubrey Mwale  
Eco Systems Malawi  
Area 49, Lingadzi Stage  
Lilongwe

5th May 2025

Dear Aubrey Mwale

Thank you for supplying the Eco Systems 'Eco 4' fuel-saving device, which we fitted to our Perkins 22 kva generator.

We measured the fuel consumption before and after fitting the device in the fuel line. The device enabled the generator to run 30% longer on the same amount of fuel.

You shared with us the technical reports from the Malawi Bureau of Standards and Lilongwe Technical College, and we were pleased to see that the fuel saving on our generator was similar to those technical findings.

We would be pleased to recommend the Eco Systems device.

Yours sincerely,

Maxwell Jamu
